

elementa

General Pricelist 2022 - Version 1.0
Norwegian Kroner

In this pricelist you can find the complete Elementa collection of essentialist furniture and hardware for home and workspace - and a few items crossing over into new frontiers.

The products, surfaces, edges and sizes in the list form our standard collection. For projects, we can offer more options. Please refer to the appendix for an overview over preferred materials for specials.

Regular delivery time for standard items is 4-8 weeks if not otherwise specified.

When ordering, please specify model name, size, surface type, colour and edging where applicable.

All prices are recommended sales prices - given in NOK excl VAT, delivered to our warehouse in Oslo.

(For the Klorofyll Planter System range please see the separate dedicated pricelist)

Ur Watercans

Design: Kneip

Sharing water with plants is a ritual worth doing gracefully and mindfully. Designed by the Norwegian art and design studio Kneip, the Ur water cans are carefully hand made in stainless steel and covered with enamel to give an elegant glossy finish that will just grow more beautiful as you use it.

Ur Watercans

Design: Kneip

		Dimension	
Ur 1 White enamel		Ø100mm x H150mm	2 723
Ur 2 White enamel		Ø105mm x H270mm	3 218
Ur 1 Black enamel		Ø100mm x H150mm	2 723
Ur 2 Black enamel		Ø105mm x H270mm	3 218

Please inquire about availability

Cascade

Design: Edvin Klasson

A lightweight and minimalist coat stand comprised of only two parts. Clothes hangers can be hung underneath the tallest loop, and the way each hook is angled makes for generous spacing between each garment.

Cascade

Design: Edvin Klasson

**Cascade
coat hanger**

Dimension

Ø50 cm / H179 cm

**Grey, black
or orange**

4 048

Vava

Design: Kristine Five Melvær

A stackable stool that combines classical elements in a new way. The name is inspired by the legs which moves up and down around the stool in a steady rhythm, giving the furniture its recognizable character.

Vava

Design: Kristine Five Melvær

Dimension

Vava wood- black
stained ash.

5 535

Vava wood - natural
ash.

tube legs with a seat
in solid ash.

4 520

Expected ready for delivery from October 2022

Please inquire about availability and colour options for project orders.

Tot Seat

Design: Edvin Klasson

Named after the Egyptian god for writing, Tot is a fantastical upholstered seat that suggests the medicinized look and feel of conventional work furniture is a passed stadium. Its three legs provide great stability and freedom of movement, giving excellent support to any seated activity.

Tot Seat

Design: Edvin Klasson

Dimension

Upholstred in GU Prinsdal fabric

Tot Seat. Upholstered with Prinsdal fabric.

H 455 x 650 x 550 mm

9 268

Please inquire for other fabrics. Some stretch is required.

Koloni Insect Hotel

Design: Edvin Klasson

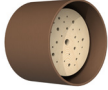

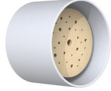

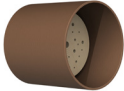

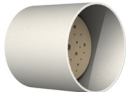

A micro-architectural structure made to shelter pollinating bees. The hotel consists of a rugged aluminium exterior protecting an inner core of solid wood with various sized rooms, ensuring warm and dry nesting facilities.

Koloni

Design: Edvin Klasson

		Dimension	
Koloni Lacquered		Ø20 cm D15 cm	1 595

Koloni Natural Alu		Ø20 cm D20 cm	1 925

Undivided Furniture System

Design: StokkeAustad

Designed by StokkeAustad, the Undivided furniture system grew out of a quest for unbounded spatial flexibility. The core of the idea is the trestle base, opening a world of possibilities.

By combining the angulation and amount of trestles, you can accommodate almost any table size and shape. It also folds in, and stacks away very nicely.

Undivided Furniture System - Technical details

Tabletop and shelf

Tabletops and shelves are made in 25 mm chipboard. HPL version has ABS edges and sharp corners, while the wooden versions have veneer band edges and rounded with a radius of 70mm.

Standard finishes:

- White HPL with ABS edges (sharp corners)
- White pigmented oak veneer with oak banding edges (rounded corners)
- Black painted oak veneer with oak banding edges (rounded corners)

Base

Flexible trestle frame in powder lacquered metal with movable joint. Table tops and shelves can rest on top of the trestle, or be attached on a disk that can be screwed into the table top.

Standard base colours:

- Black lacquered
- White Lacquered

Specials

For projects metal parts can be lacquered in any colour. Tabletops are available in any melamine, HPL, linoleum, Valchromat or veneer from our specials program as presented in the appendix. Please inquire for pricing and minimum quantities.

ON Low Tables

Design: StokkeAustad

ON is a series of lounge tables based on the simplest possible shape, the circle. The three-legged tubular base gives the tables a floating, minimal character and allows tables of different sizes and height to be placed above each other to produce an elegant landscape of roundness.

ON Low Tables - Technical details

Tabletop

Tabletops are made in 25 mm MDF board with painted oak veneer, with a visible wood structure. Oak edges are chamfered to 10 mm.

Choose between the following tabletop / base alternatives:

- White painted oak veneer / white base
- Red painted oak veneer / red base
- Black painted oak veneer / black base
- Oak veneer with oak edge. / black or white base

Base

Feet in lacquered tubular steel. Colour follows the tabletop finish, choose white or black for the natural oak version.

Specials

O3 Floating Cabinets

Design: StokkeAustad

Even in a masterfully organized, paperless office space, surfaces will mysteriously attract stuff. Designed by StokkeAustad, the O3 Floating Cabinets is a series of minimalist cabinets with a clear-cut visual profile and some beautiful details.

With its metal base partly hidden by the skirt of the carcass, the cabinet gives the impression of floating, as does the slightly elevated top.

03 Floating Cabinets - Technical details

Carcass

Carcass and doors are made in 18 mm MFC board with 1,5 mm ABS edges. Veneer versions are made in chipboard with 1,5 mm solid oak edges. Cutout for handles.

Choose between the following finishes:

- White
- Grey
- Anthracite
- White pigmented oak

Base

Base in either powder-lacquered steel or, at a given upcharge - in solid oak.

Choose between the following base alternatives:

- White metal base
- Grey metal base
- Anthracite metal base
- Solid oak - lacquered with white pigment. (upcharge)
- Solid oak - anthracite stained oak. (upcharge)

Specials

dB Silent Cabinets

Design: StokkeAustad

The dB storage series is the result of long hours of discussions with designers Jonas & Øystein at StokkeAustad - on the relationship between high quality work and our physical surroundings.

Pondering the implications of new trends, productivity and even the coming of hard AI - one thing really towered the discussion:

***** Silence *****

dB Silent Cabinets - Technical details

Carcass

The carcass is made in 18 mm MFC board with 1,5 mm ABS edges. Veneer versions are made in chipboard with 1,5 mm solid oak edges. The doors are made in aluminium with acoustic wool felt inlay kept in place by slats in solid oak.

Choose between the following carcass and door finishes:

- White carcass / white pigmented oak slats / beige acoustic felt.
- Anthracite / anthracite stained oak slats / anthracite acoustic felt.
- White pigmented oak carcass / white pigmented oak slats / beige or anthracite acoustic felt.

Base

Base in either powder-lacquered steel or, at a given upcharge - in solid oak.

Choose between the following base alternatives:

- White metal base (standard)
- Grey metal base (standard)
- Anthracite metal base (standard)
- Solid oak base - lacquered with white pigment. (+upcharge)
- Solid oak base - anthracite stained oak. (+upcharge)

X1 Seamless Table

The X1 Seamless Table is a family of tables with a classical modernist expression, with technical features updated for today's needs. It may be one of the most versatile and comprehensive systems of its kind.

With several different versions available, the series expands seamlessly into all areas of the contemporary workspace - from desks to foldable conference tables and multi-leg boardroom tables.

X1 SeamlessTable - Technical details

Tabletop

Melamine versions are made in 25 mm MFC board. The HPL, linoleum and oak veneer versions are made in 25 mm MDF board.

Choose between the following tabletop alternatives:

- White melamine with straight, white ABS edge
- Grey melamine with straight, grey ABS edge
- Anthracite melamine with straight, anthracite ABS edge
- White HPL with chamfered, white lacquered MDF edge
- Black linoleum with chamfered, black lacquered MDF edge
- Oak veneer, white pigmented - with straight, 2 mm solid oak edge

Frame

The table base is made with feet in polished aluminum with a steel tube column lacquered black or white. At a given upcharge the whole base may be monocoloured black or white.

Choose between the following base options:

- Polished aluminium feet with black column
- Polished aluminium feet with white column
- All black lacquered base (upcharge)
- All white lacquered base (upcharge)

Specials

U1 Plane Table

The U1 Plane Table is really an archetype of a modernist work table, conceptualized, designed and executed in the most rational way possible. With the tabletop appearing as if floating on the base, it marries uncompromised simplicity with a bit of sophistication.

The series incarnates neatly in many different formats - including single desks, shared workstations, meeting tables and more.

U1 Plane Table - Technical details

Tabletop

Melamine versions are made in 25 mm MFC board. The HPL, linoleum and oak veneer versions are made in 25 mm MDF board.

Choose between the following tabletop alternatives:

- White melamine with white ABS edge
- Grey melamine with grey ABS edge
- Anthracite melamine with anthracite ABS edge
- White HPL with white ABS edge
- Black linoleum with black lacquered MDF edge
- Oak veneer, white pigmented - with 2 mm solid oak edge

Base

The legs are made from metal tubes - 40x40 mm in powder coated metal. Metal to metal connections secure easy and quick assembly / disassembly. All legs have plastic feet with height levelling (+10 mm).

At a given upcharge single desk versions may be ordered in a manually height adjustable version. (H 620 - 850 mm)

Choose between the following base colours:

- White
- Grey
- Anthracite
- Black

W1 Wired Table

The Wired Table is a contemporary take on a classical modernist theme. With a simple and elegant leg construction in thin steel rod, the table gives a light and airy impression while retaining constructive strength and stability.

Available both in a desk- and a meeting table version, The Wired Series has a strong graphical character that will appeal as much to the dining room or home office, as to the workspace.

W1 Wired Table - Technical details

Tabletop

Melamine versions are made in a 25 mm MFC board. The HPL, linoleum and oak veneer versions are made in 25 mm MDF board. Choose between the following tabletop alternatives:

- White melamine with white ABS edge
- Anthracite melamine with anthracite ABS edge
- White HPL with white ABS edge
- White HPL with white lacquered MDF edge(10 mm)
- Black linoleum with black lacquered MDF edge (10 mm)
- Oak veneer with 2 mm solid oak edge

Base

The steel base is powder coated white or, at a given upcharge, black. Metal to metal connections secure easy and quick assembly / disassembling

Choose between the following base finishes:

- White
- Black

E1 Height Adjustable Table

The E1 series is our classical minimalist electrical table system, built on a double set of strong, silent motors made by Linak.

The T-shaped base is designed to be as light and simple as possible without compromising with stability and the desk's main task: to lift your table top silently and effortlessly every time.

E1 Height Adjustable Table - Technical details

Tabletops

Melamine versions are made in a 25 mm MFC board. The HPL, linoleum and oak veneer versions are made in 25 mm MDF board. All versions have sharp corners as a standard, but tables with chamfered MDF edges may be ordered with rounded corners in a radius of 15 mm.

Choose between the following tabletop alternatives:

- White melamine with straight, white ABS edge
- Grey melamine with straight, grey ABS edge
- Anthracite melamine with straight, anthracite ABS edge
- White HPL with straight, white ABS edge
- White HPL with chamfered, white lacquered MDF edge
- Black linoleum with chamfered, black lacquered MDF edge
- Oak veneer with straight, solid oak edge

For the MDF edge versions, choose between the following corner treatments:

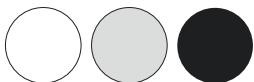

- Sharp corners
- Rounded corners

Base

The E1 table is equipped with double motors from Linak. The standard column lifts from H 705-1205. At an upcharge a 3-part column can be offered, lifting from H610-1260. Both types have the lifting capacity of 80 kg. Soft stop and soft start. Low noise-level. Extremely low power consumption in standby mode: 0,1 W.

Choose between the following powder coated base finishes;

- White
- Grey
- Black

MU Acoustic Panels

MU is a series of minimalist panels that can be configured to elegantly control the acoustics of any room.

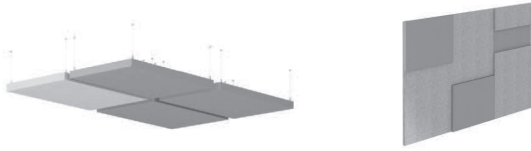

With 6 differently sized rectangular and square shapes, 2 thicknesses - and lots of colour options, the possibilities for expression are really endless.

MU Acoustic Panels - Technical details

One-sided ceiling panels and one-sided wall panels

Acoustical panels in 8 square and rectangular sizes. Frames made of 30 mm plywood covered with acoustic foam and upholstered with wool fabric. Certificated sound absorber - class C

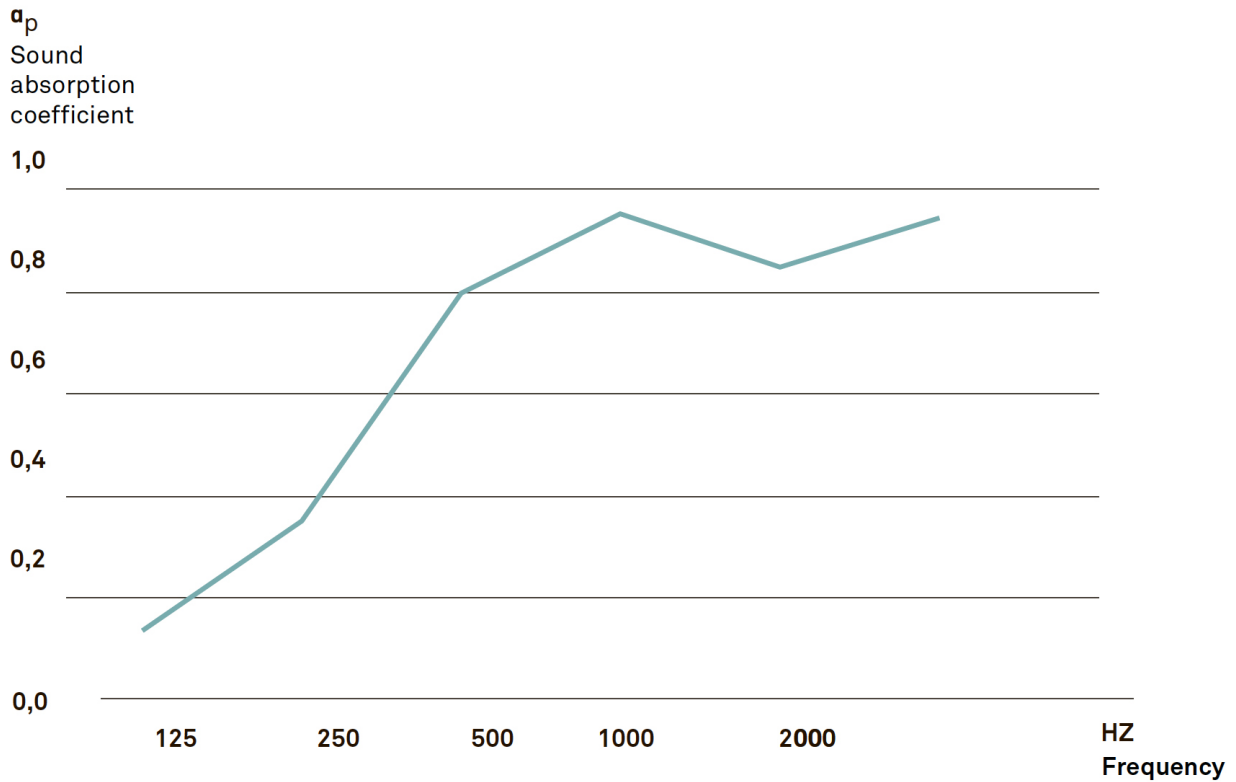

Double-sided ceiling panels

Frames made of 18 mm plywood covered with acoustic foam and upholstered with fabric. Certificated sound absorber - class C.

Rating of sound absorption, calculated in acc. with LST EN ISO 11654:1998

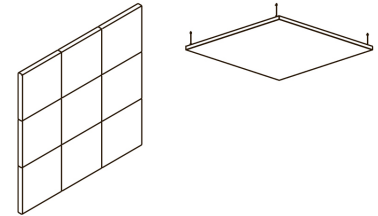

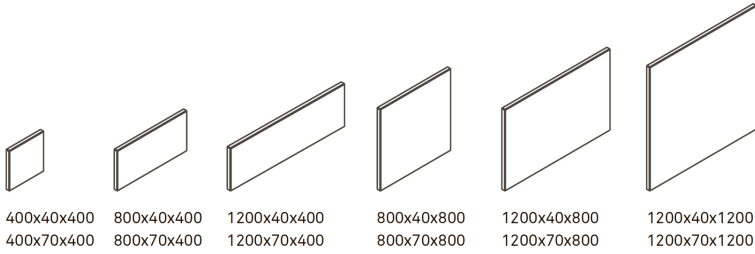

Weighted sound absorption coefficient: $\alpha_w = 0,65$ (MH)

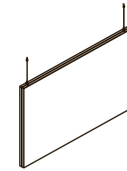

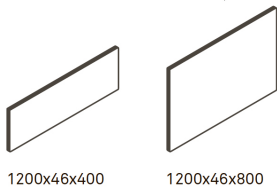

MU Acoustic Panels - Technical details

MU Measures

Single-sided panels for walls and ceilings.

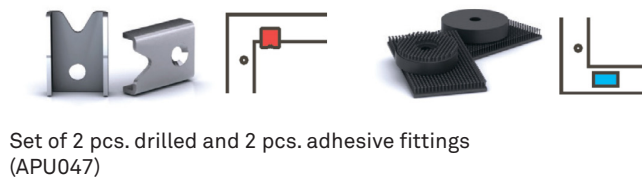

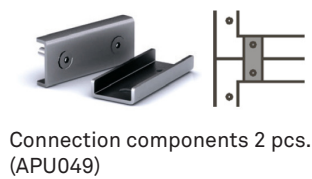

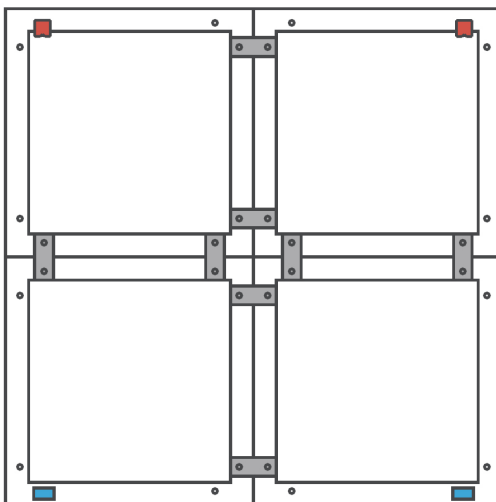

Double-sided panels for room dividers

MU Fittings

- Drilled to the wall fittings;
- Adhesive fittings (for glass or quick assembly);
- Connection components for the panels of the same length;
- Ceiling panels suspension set (50-3000 mm);
- Double-sided (vertical) panels suspension set (50-3000 mm);
- Double-sided (vertical) panels suspension set for interconnect (50-1200 mm).

Wall panels connection example with fittings

O2 Straight Storage

The O2 Straight Storage features essentialist versions of classical workspace storage typologies. In this precisely executed series, you will find simple and elegant cabinets, shelves, mobile pedestals and more. While free of any extraneous details, the Straight Storage series are all well tested and well thought-out pieces of furniture with all features you will need to keep your paper and stuff organised in style.

O2 Straight Storage - Technical Details

Carcass

Carcass and doors are made in 18 mm MFC board with 1,5 mm ABS edges. Veneer versions are made in chipboard with 1,5 mm solid oak edges. All cabinets have height levelling feet (23 mm +10). Mobile pedestals have black castors. As a standard, cabinets are made with locks. It is possible to order all cabinets without locks, please specify if needed. The mobile pedestals have central locks, locking all drawers with one key.

Choose between the following finishes:

- White
- Grey
- Anthracite
- Oak veneer

Handles

Handles are in powder coated steel.

Choose between the following finishes:

- White
- Grey
- Anthracite
- Black

Derive

Design: Emma Staubo & Jomi Evers

The Derive by Emma Staubo & Jomi Evers is a "Boundary Being" that has emerged from the field where the forest meets the digital realm.

Just touch the Derive gently to allow yourself to drift into a lush soundscape transmitted from a listening station placed deep into a Norwegian forest.

Specials: Valchromat

Valchromat is a wood fibre panel coloured throughout, where fibres are coloured individually, impregnated with organic dyes and bonded together by a special resin which gives Valchromat unique physic and mechanical features. It is made with wood waste at a plant with zero carbon emission and have outstanding environmental credentials.

Valchromat is 30% stronger than regular MDF board providing for stronger furniture, where scratches and wear are less visible. It is non-toxic, emission free and is approved for contact with food.

The samples show untreated board. Applying surface treatment to Valchromat will result in darker, more saturated colours. All samples are meant to be indicative only as screens / print will vary.

Specials: Linoleum

Furniture Linoleum is a unique surfacing material for furniture applications such as desks, stools, cabinets, doors and displays. The material is naturally flexible and can be applied on all kinds of constructions.

This natural furniture surfacing material has a matt look and feels warm to the hand. It presents a number of new fresh and stylish colours that complement the classic greys and blacks.

General Terms

Validity

The Terms of Sales and Delivery supersede and suspend all previous agreements and apply to any agreement made between ELEMENTA and the buyer unless otherwise agreed. ELEMENTA is entitled to modify these Terms at any time.

Sales and Marketing Material

Information supplied by ELEMENTA regarding prices, models, dimensions, features, and specifications in catalogues, advertisements, sales or promotional literature, price lists or elsewhere is not legally binding and shall be considered for guidance only, and may be changed at any time without prior notice. ELEMENTA reserves the right to make any changes to a product's design at any time.

Prices

The price list contains retail prices stated in NOK exclusive Norwegian VAT (MVA). The current price list replaces all previous price lists and may be subject to changes at any time without prior notice. The purchase price for ordered products is stated in the order confirmation. Delivery and installation is not included in the price. Unless otherwise agreed, quotations submitted by ELEMENTA are valid 30 days after receipt.

Orders

All orders must be in writing and shall at the minimum specify the type (product number and/or name) and quantity of the products ordered and the requested date of delivery. The order is not binding until ELEMENTA has issued an order confirmation. The order confirmation is considered accepted unless objections or changes are made within 3 working days. Cancellation of a confirmed order is subject to a cancellation fee set at 30% of the price stated in the order confirmation. Bespoke, unique or "one-off specials" cannot be cancelled.

Returns are only accepted on basis of written agreement. Unless otherwise agreed, the buyer shall also bear the transport cost and risk of any products returned to ELEMENTA in addition to any other costs agreed upon beforehand. Returned products shall be securely and properly packaged.

Payment

Unless otherwise agreed, payment shall be made in accordance with the payment terms and conditions of payment indicated on the invoice and the order confirmation.

All products remain the property of ELEMENTA until paid in full. The purchaser shall at all times keep unpaid products separated from any other products, and must ensure that the products can at all times be identified by ELEMENTA. Purchaser is liable to ELEMENTA for any damage to products until they have been paid for in full as stated above.

Payment made after due date will incur a penalty interest of 1.5% per month, payable without further notice.

Delivery

Unless otherwise agreed in writing, delivery shall be ex. works at ELEMENTA distribution in OSLO. Delivery date is an estimation and ELEMENTA cannot be held accountable for any deviations from dates or any damage or loss purchaser may suffer as a result of a delay or a non-delivery.

General Terms (cont.)

Warranty

ELEMENTA's warranty covers defects of manufacture and materials on standard products and is valid for 5 years. For outdoor products the warranty is valid for 2 years. For bespoke, unique or "one-off specials" the warranty is valid for 1 year. Excluded from this warranty are all defects due to or caused by transport, incorrect use, inadequate maintenance, accidents, the buyer's alteration or repair as well as normal wear and tear of the products. Natural variations in organic materials are not considered to be defects.

Claims

With respect to products that are defective, ELEMENTA may choose to refund the purchase price for such products, repair such products or replace such products, always provided that it is a condition for such refund, repair or replacement that the buyer has notified ELEMENTA about the defect within reasonable time after the buyer discovered or ought to have discovered it, and provided that such notice is given within the warranty period. Claims shall be filed electronically by submitting a detailed explanation and supporting photographic documentation to post@elementa.no

Complaints and Transport Damages

Purchaser is obligated to inspect deliveries upon receipt. The inspection shall include: a) Checking that the correct type of products have been delivered. b) Checking that the correct quantity of the products has been delivered. c) Ensuring that the products are of an acceptable quality. If the delivery is visibly damaged, the buyer shall: a) Inspect the entire delivery immediately. b) Accept the delivery, but immediately note the damage on the freight documents by stating "received with reservation". c) Report the extent of the damages to ELEMENTA. Claims pertaining to delivery or transport must be made within 3 working days upon receipt. Complaints shall be filed electronically by submitting a detailed explanation and supporting photographic documentation to post@elementa.no

Applicable Law & Venue

The Terms of Sale and Delivery shall be interpreted in accordance with applicable Norwegian law. Any dispute that may arise which cannot be settled amicably, shall be brought before the Oslo District Court.
